NEURAL BASIS OF THE HUMAN CONSCIOUSNESS: PHENOMENA, PARADIGMS, AND EXPLORING TECHNIQUES

June 12, 2019

Room A (Building of Pharmacology, CU024)

Department of Physiology and Pharmacology "Vittorio Erspamer"

Scientific program

03:00-03:30 pm. **Prof. Claudio Babiloni**, Sapienza University of Rome, Italy: *"Primary visual consciousness of qualia: the neural basis."*

03:30-04:00 pm. **Prof. Aina Puce**, Indiana University, USA: *"Consciousness and Social representation in the brain."*

04:00-04:30 pm. **Prof. Margitta Seeck**, Genève University, Switzerland: *"Disturbances of consciousness in epileptic patients: the neural basis."*

04.30-05:00 pm. **Coffee break**

05:00-06:00 pm. **General discussion.**
Chairman: **Prof. Alan Evans**, McGill University, Montreal, Canada
